Retail Solutions Catalog
May Group was started in a garage in 1946 as a sign company serving area businesses. Ten years later, a local oil company approached us to create a changeable pricing system for their gas stations. This development led to a nationwide system for all gasoline retailers in the United States and many other parts of the world. We became the world’s largest manufacturer of aluminum fuel price signs - a position that we still hold today. Over the years, May Group has continued to develop expertise in custom visual brand communication and we are proud to work with some of the world’s largest brands.

Snap Loc Sign Frames

These versatile single-sided frames can be mounted to any wall or pole to promote your products and services. The Snap Loc design allows all four sides to spring open for easy front-loading. The interlocking, continuous hinge design and stainless steel springs assure smooth, even opening along the molding’s full length. These signs hold soft or rigid inserts up to .040 in thickness. Inserts, hardware and accessories sold separately.
